Make writing a letter easy with template placeholders.

Dear Ladies and Gentlemen:

I would like to start up my own pizza restaurant. I have surveyed the residents of my community and discovered that 33% of respondents preferred pizza. Only 29% want Mexican cuisine, 17% prefer Italian cuisine, 13% would like to eat at a steakhouse, and a small 8% w survey are displayed in the chart below.

Write persuasive text using data from survey results.

Paste the graph created in Excel into the investment letter.

I require money to start up my business venture. I would like you to invest in my business idea of running a pizza restaurant. My restaurant would be unique, as it would allow customers to choose from various toppings, crusts, and sizes of pizza.

Respectfully,

PIZZA PETE
